I badly damaged my knee in public order training. PHS paid for me to have ground-breaking surgery, which involved removing some of my healthy cartilage, growing it and then putting it back. I don't think I'd get that on the NHS! Personally, I wouldn't be without the PHS.

- Asif Khan Sergeant West Midlands Police

Thanks to the PHS, my cancer was diagnosed early and I was able to access the very best medical care to prevent it from spreading. My surgery was a complete success. I can honestly say that if it wasn't for the prompt and professional treatment I received, I might not be here now.

- David Cooper Detective Sergeant West Midlands Police

Reassurance for someone looking to become a member from those who already are.
